## WHAT ARE OTG USBS?

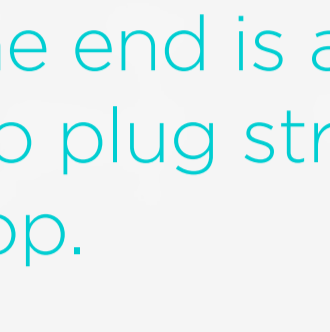

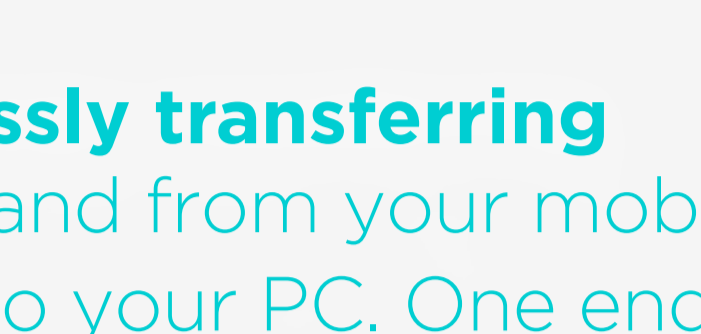

OTG (On The Go) USBs are the latest USB standard that allow you to seamlessly transfer files to and from your mobile device, just like you would a regular USB with your PC or laptop.

Simply plug the OTG USB into your mobile device *and you are ready to go!*

Transfer media files from phone to OTG

Transfer media files from OTG to PC/MAC

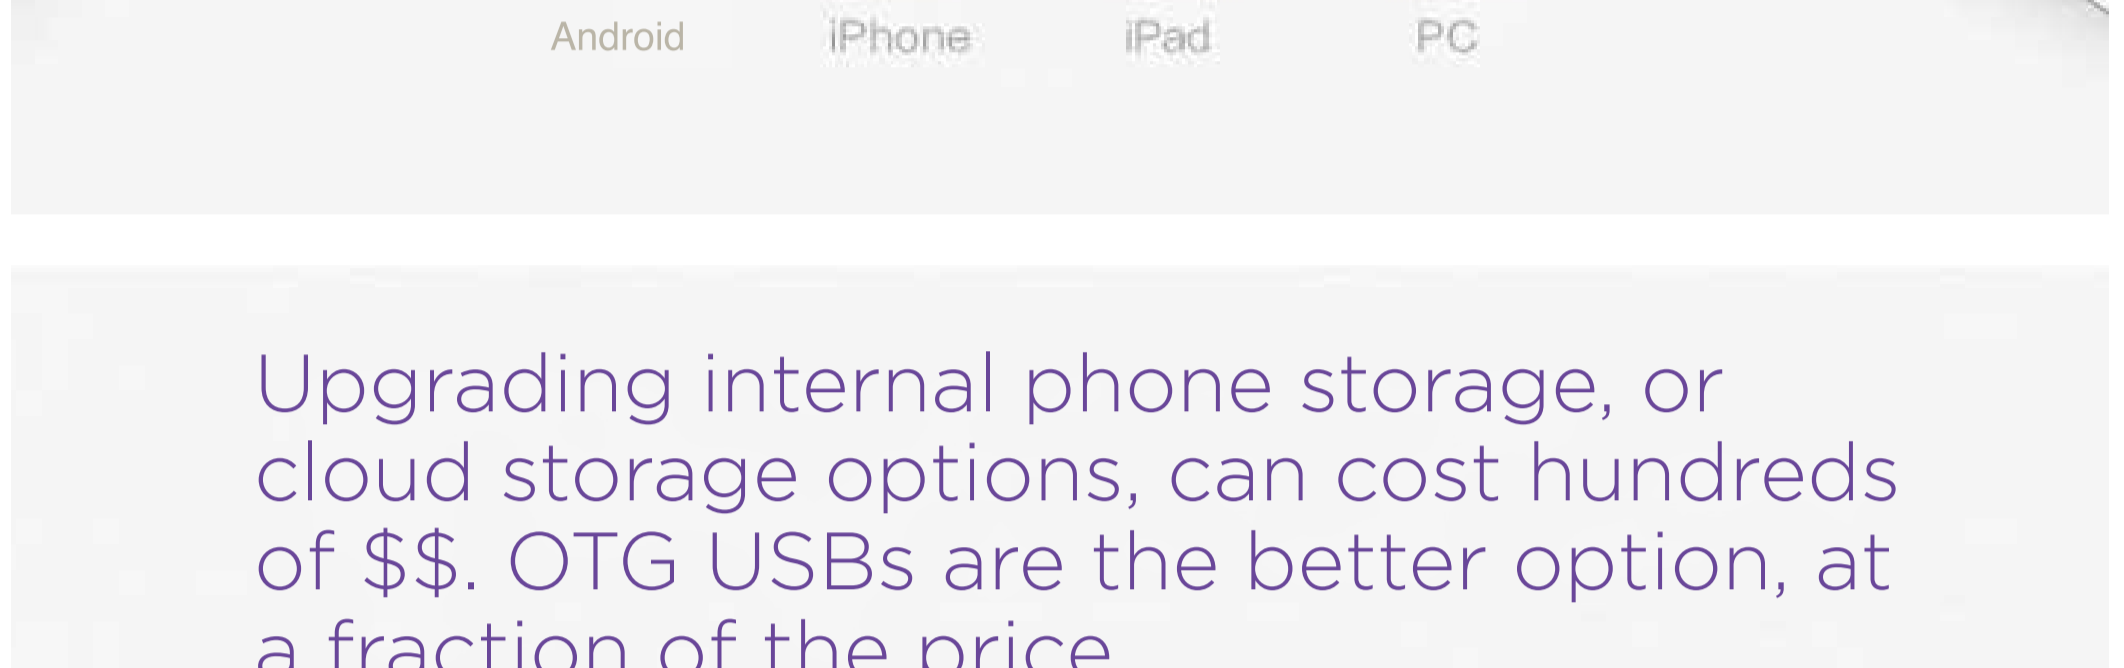

## OTG USBS ARE GREAT FOR

**SEAMLESSLY TRANSFER**

**Seamlessly transferring files** to and from your mobile device to your PC. One end plugs into your Android, or IOS device, one end is a regular USB, to plug straight into your laptop.

*for Android & IOS devices*

Upgrading internal phone storage, or cloud storage options, can cost hundreds of \$\$\$. OTG USBs are the better option, at a fraction of the price.

**FREEING UP SPACE ON YOUR PHONE**

*Never run out of space!*
